Community Values

Scholarship Academics are central to the college experience and strive to provide opportunities for our members to excel in the classroom. As a fraternity and sorority community, we frequently attain a community GPA higher than the average Rollins undergraduate GPA.

Brotherhood/Sisterhood The relationships that are developed in fraternities and sororities will last a lifetime, not just four years. Our chapters strive to provide a home away from home for their members. Fraternity or sorority membership instantly connects you to thousands of people (including alumni/ae).

Leadership Leadership can be learned in fraternities and sororities by serving on chapter and council executive boards, leading committees, or even planning an event. In addition, many of our chapters provide funding to attend regional and national leadership conferences.

Philanthropy & Service Each chapter gives back to their individual philanthropies annually, in addition to supporting philanthropies of other fraternities and sororities, and campus-wide initiatives. Many chapters will also organize service opportunities and immersion trips for its members.

Learning We are committed to providing members with professional development opportunities and teaching them about health and safety issues such as driving under the influence, sexual assault, hazing and bystander intervention, as well as the importance of responsibility while drinking. Fraternity & Sorority Life and individual chapters will host educational workshops on these various topics.
