McNeil Center for Early American Studies**[Barra Sabbatical Fellowship](#)**

Deadline: 11/1

The McNeil Center facilitates scholarly inquiry into the histories and cultures of North America in the Atlantic world before 1850, with a particular but by no means exclusive emphasis on the mid-Atlantic region. This award is for a nine-month term beginning 1 September 2016. This fellowship is designed for a scholar in any relevant discipline who earned the Ph.D. no later than 2010 and who will be on leave from a tenured or tenure-track faculty position for the 2016–2017 academic year. Proposals will be entertained for book-length projects falling within the Center's area of interest at any stage of research or writing

The Massachusetts Historical Society**[Fellowships Program](#)**

Deadline: varies by fellowship

The Massachusetts Historical Society (MHS) is a major research library and manuscript repository. Its holdings encompass millions of rare and unique documents and artifacts vital to the study of American history, many of them irreplaceable national treasures. In addition to approximately 20 short-term fellowships, the Society will help to provide at least 11 New England Regional Fellowship Consortium grants for projects that draw on the resources of several participating institutions, and at least two long-term MHS-NEH fellowships for study at the MHS.

Mathematical Sciences Research Institute**[Research Programs](#)**

Deadline: 12/1

Acknowledged as the premier center for collaborative mathematical research, MSRI organizes and hosts semester-length (or two-semester duration) programs that become the leading edge in that field of study. Mathematicians worldwide come to the Institute to engage in the research of classical fundamental mathematics, modern applied mathematics, statistics, computer science, and other mathematical sciences.

Mount Desert Island (MDIBL)**[Visiting Scientist Program](#)**

Deadline: 12/21

Limited funds are available for fellowship support of visiting scientists, scientists who come to the MDI Biological Laboratory to collaborate with our faculty, and our scientific staff who need to travel to conduct research with collaborators.

Memorial Foundation for Jewish Culture**[International Fellowships in Jewish Studies](#)**

Deadline: 10/15

The purpose of the Foundation's Fellowship program is to assist well-qualified individuals in carrying out an independent scholarly, literary or art project, in a field of Jewish specialization, which makes a significant contribution to the understanding, preservation, enhancement or transmission of Jewish culture.

Metropolitan Museum of Art**[Art History Fellowship](#)**

Deadline: 11/6

Fellowships at the Metropolitan Museum are an opportunity for a community of scholars from around the world to use the Museum as a place for exchange, research, and professional advancement. The fellows are fully integrated into the community of art history and conservation fellows and, through weekly gatherings and workshops, take part in research sharing and workshops that explore the inner workings of the Met. Fellows are given a workspace and access to libraries, collections, research facilities, labs, and, perhaps most importantly, the time and space to think.

[Conservation and Scientific Research Fellowships](#)

Deadline: 12/4

Provide training, hands-on treatment of works of art, and research opportunities for junior conservators and scientists in the field. The fellowships also support senior scholars carrying out independent research projects related to the Museum's collections.

Monell Chemical Senses Center**[Postdoctoral Fellowship Program](#)**

The sponsor offers postdoctoral positions with a research focus on understanding how the chemical senses function and their importance in everyday life. Positions are currently available for interdisciplinary training and research in the areas of Sensation and Perception, Genetics, Neuroscience and Molecular Biology, Environmental and Occupational Health, Nutrition and Appetite, Health and Well-Being, and Chemical Ecology and Communication. Approaches include clinical medicine, chemistry, organismal and molecular biology, animal and human psychophysics, organ- and neurophysiology, including single cell, whole nerve and in situ brain recordings, neuroanatomy, experimental psychology, environmental sampling and human exposure assessment.

National Endowment for Democracy (NED)**[Fellowships](#)**

Deadline: 11/1

Reagan-Fascell Democracy Fellows maintain full-time residence at the International Forum for Democratic Studies, NED's research arm located in Washington, D.C. The Forum hosts 16 to 20 Reagan-Fascell Fellows per year for periods ranging from five to ten months. NED's International Forum for Democratic Studies also hosts a small number of Visiting Fellows each year. Visiting Fellows are scholars and practitioners who wish to conduct research and writing at the Forum for a limited period of time but do not need any financial assistance.

National Endowment for the Humanities**[Fellowships](#)**

Deadline: 4/28

Support individuals pursuing advanced research that is of value to humanities scholars, general audiences, or both. Recipients usually produce articles, monographs, books, digital materials, archaeological site reports, translations, editions, or other scholarly resources. Fellowships support continuous full-time work for a period of six to twelve months.

National Endowment for the Humanities

[Digital Humanities](#)

Deadline: 2/17

The Digital Humanities Implementation Grants program awards substantial grants to support the implementation of experimental projects that have successfully completed a start-up phase and demonstrated their value to the humanities. Such projects might enhance our understanding of central problems in the humanities, raise new questions in the humanities, or develop new digital applications and approaches for use in the humanities. The program can support innovative digital humanities projects that address multiple audiences, including scholars, teachers, librarians, and the public. Applications from recipients of NEH's Digital Humanities Start-Up Grants are welcome.

[Public Scholar](#)

Deadline: 2/2

The Public Scholar Program supports well-researched books in the humanities intended to reach a broad readership. Although humanities scholarship can be specialized, the humanities also strive to engage broad audiences in exploring subjects of general interest. They seek to deepen our understanding of the human condition as well as current conditions and contemporary problems. The Public Scholar Program aims to encourage scholarship that will be of broad interest and have lasting impact. Such scholarship might present a narrative history, tell the stories of important individuals, analyze significant texts, provide a synthesis of ideas, revive interest in a neglected subject, or examine the latest thinking on a topic.

National Gallery of Art Center for Advanced Study in the Visual Arts

[Visiting Senior Fellowship Program](#)

Fellowships are for full-time research, and scholars are expected to reside in Washington and to participate in the activities of the Center throughout the fellowship period. Lectures, colloquia, and informal discussions complement the fellowship program. Applications will be considered for study in the history, theory, and criticism of the visual arts (painting, sculpture, architecture, landscape architecture, urbanism, prints and drawings, film, photography, decorative arts, industrial design, and other arts) of any geographical area and of any period. Applications are also solicited from scholars in other disciplines whose work examines artifacts or has implications for the analysis and criticism of visual form.

National Humanities Center

[Fellowships](#)

Deadline: 10/15

The National Humanities Center offers 40 residential fellowships for advanced study in the humanities during the academic year. Young scholars as well as senior scholars are encouraged to apply, but they must have a record of publication. In addition to scholars from all fields of the humanities, the Center accepts individuals from the natural and social sciences, the arts, the professions, and public life who are engaged in humanistic projects. The Center is also international and gladly accepts applications from scholars outside the United States. Most of the Center's fellowships are unrestricted. Several, however, are designated for particular areas of research. These include one fellowship for a young woman in philosophy and fellowships for environmental studies; English literature; art history; Asian Studies; and theology.

National Research Council

[Research Associateship Programs](#)

The mission of the NRC Research Associateship Programs (RAP) is to promote excellence in scientific and technological research conducted by the U. S. government through the administration of programs offering graduate, postdoctoral, and senior level research opportunities at sponsoring federal laboratories and affiliated institutions.

National Security Agency

[Mathematical Sciences Program Sabbaticals](#)

The sabbaticals primarily involve cryptanalysis, a discipline highly dependent on superior math ability. Other sabbatical work involves algebra, probability, statistics, number theory, and discrete mathematics. Prof and family must be USA citizens.

The Newberry Library

[Long-Term Fellowships](#)

Deadline: 11/15

Offers a variety of long-term fellowships (see link for list) to post-doctoral scholars for periods of six to eleven months. Applicants for post-doctoral awards must hold the Ph.D. at the time of application. These grants support individual research and promote serious intellectual exchange through active participation in the Library's scholarly activities, including a biweekly fellows' seminar. The stipends for these fellowships range from \$25,200 to \$50,400. Applicants may combine these fellowship awards with sabbatical or other stipendiary support.

[Short-Term Fellowships](#)

Deadline: 12/15

Offers a variety of short-term fellowships (see link for list) which are generally restricted to post-doctoral scholars, Ph.D. candidates, or holders of other terminal degrees from outside of the Chicago area who have a specific need for Newberry collections. Tenure of short-term fellowships varies from one to two months, unless otherwise noted under the award description. Unless otherwise noted, the amount of the award is \$1600 per month.

New York Mills Regional Cultural Center

[Arts Retreat Program](#)

Deadline: 4/1 and 10/1

Artists from all performance or visual media will be considered for a retreat. The selection committee awards retreats to artists based on merit and plan of work during the retreat period. Open Society Foundations

[Open Society Fellowships](#)

Supports individuals who are developing innovative solutions to pressing open society challenges. The fellowship program seeks applicants eager to communicate original and provocative ideas to a broad audience, as well as to shape policy and inspire critical debate among activists, intellectuals, decision makers, and the public. The program also aims to sharpen OSI's thinking, question its assumptions, and broaden its understanding of pivotal problems. Below are some possible topic areas that fellows may explore in the coming years: Global migration and the rights of displaced minorities; Organized crime, corruption, and state failure; The economic crisis and its effect on open societies; Movement-building and state repression in societies affected by climate change; The impact of new technologies on citizen access to information and justice; The link between governance, transparency, and economic development.

PhRMA Foundation

[Health Outcomes Sabbatical](#)

Deadlines: 2/1

Health Outcomes research spans a broad spectrum of issues related to health-care delivery, from studies evaluating effectiveness of a pharmaceutical intervention, to the impact of reimbursement policies on outcomes of care. It also ranges from the development and use of tools to perform patient-based assessments to analyses of ways in which results of outcomes research are disseminated to providers or consumers to encourage behavior change. Outcomes research incorporates a variety of methods from different disciplines. The application of outcomes research principles in evaluating the design, delivery, and effectiveness of pharmaceuticals includes but isn't limited to the following general areas:

[Informatics Sabbatical](#)

Deadlines: 9/1

The goal of the Informatics program is to promote development and use of informatics in an integrative approach

toward understanding normal processes of human biology and disease processes. Informatics awards support career development of scientists engaged in research that significantly integrates state-of-the-art information technology developed with advanced biological, chemical, and pharmacological sciences in the following areas:

Pharmaceutics Sabbatical

Deadlines: 9/1

Pharmaceutics strongly emphasizes quantitative understanding and use of the principles underlying drug delivery and drug transport, whether a drug is a small organic molecule, a higher molecular weight peptide, a protein derived through biotechnology, or an oligonucleotide-like molecule for gene therapy. It is also concerned with the impact of formulation composition and manufacturing/engineering factors on the quality of a dosage form and its physical and chemical stability

Pharmacology/toxicology Sabbatical

Deadlines: 9/1

Pharmacology/toxicology awards support career development activities of scientists embarking on research that integrates information on molecular or cellular mechanisms of action with information on the effects of an agent observed in an intact organism, in experimental animal or clinical studies or both. Highest priority will be given to applicants whose research will attempt to integrate information on a drug or chemical's mechanism of action at the molecular or cellular level with a drug's effect in a human or laboratory animal. Applicants should describe the significance of a hypothesis being tested in the context of potential influences of biochemical, physiological, behavioral, or social systems.

Princeton University

Hodder Fellowships

Deadline: 9/14

The Hodder Fellowship was created for artists in the early stages of their careers. It is awarded to individuals during that crucial period when they have demonstrated exceptional promise but have not yet received widespread recognition. Hodder Fellows may be poets, playwrights, novelists, creative nonfiction writers, translators, or other artists and humanists who have "much more than ordinarily intellectual and literary gifts" and who are selected "for promise rather than performance."

Laurance S. Rockefeller Visiting Fellowships

Deadline: 11/2

[Lynette S. Autrey Visiting Scholars](#)

Deadline: 1/4

To promote humanistic research, broadly understood they bring together a select group of Rice faculty members, visiting scholars, and Rice graduate students to study a common theme from several disciplinary perspectives. The most visible goal of the seminars is a scholarly publication to which all participants will contribute. Equally important but less visible is the creation of international and interdisciplinary scholarly communities that will outlive the seminars themselves. The topic of the Rice Seminars changes each year. For 2016-17, *Chronotopic Imaginaries: The City in Signs, Signals, and Scripts*.

Russell Sage Foundation

[Visiting Scholars Program](#)

Deadline: 6/30

The Russell Sage Foundation's Visiting Scholars Program provides a unique opportunity for select scholars in the social, economic and behavioral sciences to pursue their research and writing while in residence at the Foundation's New York headquarters. Research carried out by Visiting Scholars constitutes an important part of the Foundation's ongoing effort to analyze and understand the complex and shifting nature of social and economic life in the United States. The Foundation annually awards up to 17 residential fellowships to select scholars in the social sciences who are at least several years beyond the Ph.D.

[Project & Presidential Awards](#)

The Foundation encourages methodological variety and inter-disciplinary collaboration, but all proposals must have well-developed conceptual frameworks and research designs. Analytical models must be well-specified and research questions and hypotheses (where applicable) must be clearly stated. Awards are available for research assistance, data acquisition, data analysis, and investigator time for conducting research and writing up results. We are especially interested in novel uses of existing data to answer emerging or long-standing questions of interest in the Foundation's program areas, as well as analyses of new or under-utilized data. Proposals to conduct laboratory or field experiments, in-depth qualitative interviews, and ethnographies are also encouraged. Smaller projects might consist of exploratory fieldwork, a pilot study, or the analysis of existing data.

The School for Advanced Research (SAR)

[Resident Scholars](#)

Deadline: 11/1
