

General Knowledge Test (GK)

The General Knowledge Test is a new test developed to replace the College Level Academic Skills Test (CLAST), which was a State-mandated test required of all individuals seeking a Master of Arts in Teaching Elementary Education or certification to teach elementary and secondary grade levels. Registration Bulletins for the General Knowledge Test are available at the Hamilton Holt School office and the Rollins College Education Department. Visit www.cefe.usf.edu for further information about registering for the GK or other Florida Teacher Certification Exams.
