

My Path to Graduation

By creating a path to graduation with your faculty advisor, you are planning out your success at Rollins and beyond. We recommend that you write the graduation success statement in pencil to remind you that your goals and your plan are flexible and subject to change. It is important that your graduation success statement and your four-year academic plan are congruent, if they are not, please work with your faculty advisor to revise your statement and/or your four-year plan.

Graduation Success Statement

Date: _____

The graduation success statement and four-year academic plan that I have designed with my faculty advisor is how I will define success on my graduation day. The entire path to graduation plan acts as a guide to understanding what I need to do to pursue and achieve my goals and be successful at Rollins College. I understand that the graduation success statement and the four-year plan is and should be flexible. I understand what I wrote today is based on what I know today and that it is okay if my goals change. If I have questions, change my mind or need assistance, I will be sure to follow up with my Faculty Advisor.

“Empowering Students to pursue meaningful lives and productive careers.”
