### **Vision – *Connected for Life***

The RCAA will enable a lifelong connection through three core program components: 1) Local Chapters, 2) Student & Alumni Programming, and 3) Career Network. Each of these components are targeted to engage alumni across the “life cycle of a tar”. Our local chapters will bring Rollins to our sixteen (16) largest communities across the United States (an international strategy is under consideration). These chapters will engage local Alumni to lead and direct the activities, leverage college developed programs, and encourage volunteerism amongst the Alumni. Alumni programming will span the diversity of the Alumni population interests: including athletic competition, arts, academic and cultural programs, social events and networking, travel opportunities, and community service events. The career network will work in conjunction with Rollins to activate our Alumni to participate and take advantage of our global reach.

The RCAA will support these program components through proper governance and frequent communication. We have established the necessary board of director disciplines to set up, support, and continue these programs into the future. We are taking advantage of various media to facilitate communication to our Alumni and bring Rollins into our communities. These programs will evolve as the needs and desires of our Alumni change over time.

## 2013-2016 Strategic Plan Priorities

As we start the Public Phase of The Campaign *for* Rollins in Fiscal Year 2015, alumni relations at Rollins will be cutting-edge and leading the industry in innovative educational, career, and community service programs and volunteer opportunities. Our Alumni Board priorities and organization will be a model for peer and aspirant institutions, and our alumni will be engaged and active participants in the life of Rollins, on-campus and within their own communities.

In looking forward to the next three years, the focus will be on developing and enhancing the new programs established, including Regional Chapters and the Alumni Career Network, and increasing our volunteer base while providing ongoing training and leadership development, and incorporating alumni board support of annual giving to successfully launch The Campaign *for* Rollins.
