Alcohol Policy Violations
Alcohol violations are designated as either minor or major in a given incident. Though the designation assigned to each incident involving a policy violation is based on the particulars of the incident, which could include the type and quantity of alcohol, some general categories of minor and major alcohol violations may be identified. These categories include, but are not limited to, the following:

Minor Violations
- being present in a room or area with alcohol
- underage possession or consumption of alcohol
- possession or consumption by 21+ student in a dry room/building or during a dry campus
- possession of empty alcohol containers
- open containers
- excessive drinking and intoxication for students over the age of 21
- drinking games and/or devices designed for rapid consumption of alcohol
- common sources of alcohol (such as kegs, party balls)

Major Violations
- selling, giving, or serving alcoholic beverages or permitting alcohol to be served to persons under 21 years of age
- using altered identification or misrepresenting information to obtain alcohol
- Driving with a blood alcohol level of 0.08% or more.
- intoxication leading to harm to self or others (including transports when the student did not seek help)
- intoxication leading to property damage, disruption to the community, or other violations of College policy

Possible Sanctions
Students found in violation of the alcohol policy will receive any combination of sanctions outlined below. The sanctions listed below are designed to be flexible in order to best meet the needs of individual students. Additional sanctions not appearing in the listings below may be imposed as warranted at the discretion of the hearing body through which the case is adjudicated. A student’s previous disciplinary history will also be taken into account; therefore, sanctions may be different for students with previous policy violations. Be advised that the offense count applies to the student’s entire career at Rollins College and does not renew at any point.
