

FAQ for Outdoor Classes Spring 2021

Before signing up for a class that meets outdoors, please review the following requirements and other things to consider.

Requirements:

- A headset with mic
- A laptop/iPad/phone device required (WiFi enabled device with a good screen)
- Use of WebEx or Teams during class
- A small notebook that does not require a table or desk
- Cloth masks

Things to Consider

- Class meetings with inclement weather will be moved to virtual or another modality but will not be moved indoors.
- Consider whether your device has battery life to get through a class given that videoconferencing is battery intensive. If not, you might want to use an external battery pack. Power outlets will not be accessible.
- A thick towel and/or yoga mat can double as a soft seat.
- You may have to place your bag on the ground.
- Be prepared (in some cases) for sun/heat/humidity/insects.
- Wear footwear that is appropriate for wet grass.
